

Introducing the logical next step in luxury cars. The new 100/200 Series.

Retooled, refined, recrafted. And remarkably reassuring. Because this is no mere restyling. This is rethinking, from the inside out. With over 1500 design improvements.

And backed by the unprecedented Audi Advantage. Which, quite simply, provides security from

delivery to trade-in.

For example, the Audi Advantage* covers the complete cost of all scheduled maintenance for three years or 50,000 miles.

It provides ten full years of corrosion protection.

And offers 24-Hour Roadside Assistance.

It even certifies trade-in value, through a Guaranteed Resale Index.

In short, it is protection no other car maker can match.

And it's standard equipment on every new Audi. From the dramatic 100/200 Series to the spirited 80/90 Sports Sedans.

So arrange for a test drive. After all, it's the beginning of a better way to own a car.

*Your dealer will proudly share details of Audi's new car and corrosion perforation limited warranties, and the other programs listed above. Roadside Assistance is provided by the United States Auto Club, Motoring Division, Inc. Guaranteed Resale Index excludes leases. Certain restrictions apply.
