

**Audi Advantage:** Because the less you worry about the care and

maintenance of your car the more you can enjoy the driving experience.

Audi covers wheel alignment, balancing and brake pads when necessitated by normal wear. Fluids and tire pressure are checked and corrected, if necessary, during the course of scheduled maintenance visits during your coverage period.

All systems OK

Worn wiper blades, burned-out bulbs and blown fuses will all be replaced free of charge. Headlights will also be adjusted, if their aim has changed due to normal wear.

Coolant temperature or level

Oil pressure

Brake light function

Brake pad wear

Windshield fluid level

Low fuel

Battery Charge

The extensive "checklist" of warning lights, standard on most Audis, will alert you to adjustments you might need.

Radio frequency

Tape cassette mode

### 3-Year/50,000-Mile Limited New Vehicle Warranty

For three years or 50,000 miles (whichever comes first), Audi of America, Inc. will see to it that any repair to correct a defect in material or workmanship will be made free of charge by an authorized Audi dealer in the United States or Canada.

- This remarkable long-term, bumper-to-bumper plan has no hidden deductibles and features few of the restrictive "fine print" conditions found in other new vehicle warranties.
- Emergency repairs performed by a non-Audi service facility are also covered, under certain circumstances. Vehicle owners will be reimbursed, provided the repair work was needed and correctly performed and circumstances prevented bringing the vehicle to the nearest dealer.
- If you are dissatisfied with the service you have received, we suggest that you first discuss the problem with the service personnel at your authorized Audi dealer. You may want to speak to the Service Manager or directly to the owner of the dealership. They are in business to be concerned about your satisfaction and goodwill. And, since they are closest to the situation, they are in the best position to quickly resolve any problem you may have.

If the problem is not resolved by the dealership, you should contact Audi Customer Assistance by calling the toll-free number: 1-800-822-AUDI.

- Ask your Audi dealer for a copy of our detailed warranty brochure.

### No-Charge 3-Year/50,000-Mile Scheduled Maintenance

To keep your Audi operating at its very best, Audi will pay for all regularly scheduled manufacturer recommended maintenance. Not just through next week, next month or next year, but for three years or 50,000 miles, whichever comes first.

- Covers all scheduled maintenance services such as tune-ups and oil changes, as well as wheel alignment and balancing and headlight adjustments when necessary due to the normal wear and tear of driving.
- Among items checked and corrected, if necessary, during regularly scheduled maintenance service are: tire pressure and exterior light bulbs as well as battery electrolyte, hydraulic oil, brake, coolant and washer fluid levels.
- Includes replacement, when necessitated by normal wear, of items not included in the new vehicle warranty. Among these items are wiper blades, brake pads, clutch linings, light bulbs and fuses.
- This scheduled no-charge maintenance plan, which is transferable to a new owner during its full term, covers practically everything that doesn't result from negligence, abuse, misuse, improper repair, alteration, accident or fire.

AUDI  
ADVANTAGE  
KEEPING  
YOUR CAR  
ON THE  
ROAD

AUDI

**The Audi Advantage.** Whether you own or lease a new Audi, there's one thing you can count on... a

comprehensive owner support program called the Audi Advantage. Like the automobiles it covers,

this remarkably complete program goes far beyond the expected... with a full decade of corrosion

protection, with all scheduled maintenance costs covered for three years or 50,000 miles

and with a comprehensive Roadside Assistance program.

How often has a new automobile's "newness" faded prematurely because of indifferent service, costly repairs or lack of attention to detail? Few people purchase a new car for its warranty coverage or because it underwent millions of miles of pre-production testing that included arctic cold and desert heat. But Audi believes that such extensive testing is critical. That's because automobiles that are properly designed and built can withstand the rigors of testing and the watchful eyes of testers better than those that are not. And in the end, Audi can only provide such comprehensive warranties because of its confidence in its product. Which brings us to the inevitable question: What makes an Audi different from other automobiles? For the answer, we suggest you do two things... continue reading about the Audi Advantage, then drive an Audi.

With the Audi Advantage, you'll find yourself spending more time enjoying the pleasure of driving your new car and less time worrying about the effect routine service can have on your bank balance.

Every Audi undergoes a 27-step paint and finishing process that ensures its fully galvanized body will look beautiful and resist corrosion perforation for a full ten years.

With its fully galvanized body and 27-step paint process, no Audi will ever look like this. You have our word on it, now and for at least ten years down the road.

#### 10-Year Limited Warranty Against Corrosion Perforation

Audi has worked diligently for years to improve corrosion protection. The result? The next best thing to a rust-proof car: a ten-year limited warranty against corrosion perforation.

Not only is this warranty one of the longest in the industry, it's one of the least restrictive. Many manufacturers require periodic inspection. Audi doesn't... simply because Audi doesn't have to. Instead, Audi offers a corrosion-resistant galvanized body. All sheet metal is 100% galvanized on both sides.

In addition, Audi also employs sturdy, lightweight structural plastics that can't corrode and aluminum, which is highly corrosion-resistant. In addition, hidden and recessed areas where moisture and road salt can collect to cause unnoticed harm are further protected with a hot wax sealing process.

Finally, Audis aren't just painted. They undergo a comprehensive 27-step paint and finishing process that includes zinc-rich primers for still more resistance to corrosion.

In the highly unlikely event that any body sheet metal parts rust through, any authorized Audi dealer will repair or replace these parts free of charge, for up to ten years, no matter what the vehicle's mileage.

Your Audi dealer will be pleased to provide you with a copy of the detailed Audi warranty brochure.

#### 24-Hour Roadside Assistance

While the Audi Advantage is designed to prevent mechanical malfunctions from happening, Audi has provided for the times when they do with Roadside Assistance, which you can call toll-free 24 hours a day from any phone in the U.S. or Canada. With Roadside Assistance, Audi enrolls you, free of charge, as a member of the United States Auto Club, Motoring Division, Inc., for three full years. Among the benefits of USAC membership are:

- **Road Service.** You're reimbursed up to \$50 for any type of emergency road service, no matter where you are in the U.S. or Canada... whether you need a tow, run out of gas, need a jump start, a flat tire changed or a locksmith to get you inside your locked car.
- **Travel Expenses.** If your Audi is disabled by a collision or a mechanical breakdown of any component covered by the new vehicle limited warranty while you are more than 200 miles from home, you will be reimbursed up to \$500 for travel or lodging expenses and transportation back to your Audi after its repair.
- **Ambulance Service.** Whether you're in a car or in any other type of motor vehicle involved in an accident, you are eligible for a reimbursement up to \$50 for ambulance services.
- **Auto Theft Award.** A reward of \$5,000 will be paid for information leading to the arrest and conviction of anyone who steals your Audi.
- **Travel Services.** Key tag registration and custom trip routing are just two of the many services available to you as an Audi owner and a member of the United States Auto Club.

Any roadside emergency will be handled quickly and courteously when you own a new Audi because of the 24-hour Roadside Assistance you'll receive as a member of the United States Auto Club.

#### Audi Maintenance Protection/Warranty Coverage Comparison

ITEM	MAINTENANCE PROTECTION	WARRANTY
Coverage period	3 years/50,000 miles whichever comes first	3 years/50,000 miles whichever comes first
Any repair or replacement due to defect in material or workmanship	No	Yes
Scheduled manufacturer-recommended maintenance services	Yes	No
"Do-it-yourself" service items: checking tire pressure, functioning of lights and battery electrolyte level	Yes Only during scheduled maintenance 15,000, 30,000 and 45,000 mile maintenances	No
Brake pads worn below wear limit	Yes	No
Windshield wiper blade	Yes	No
Clutch disc friction material worn out	Yes	No
Halogen headlight and instrument panel bulbs	No	Yes
All other light bulbs	Yes	No
Battery	No	Yes
Blown fuse	Yes	No
Adding of fluids such as washer fluid, hydraulic fluid, brake fluid	Yes Only during scheduled maintenance service	No
Wheel alignment	Yes If no evidence of accident, damage or abuse	No
Tire balancing	Yes	No
Shock absorbers	No	Yes
Worn out tires	No	No
Worn out seat cover	No	No
Seat cover defective seam	No	Yes
Headlight adjustment	Yes	No
Door adjustment	No	Yes
Shift linkage adjustment	No	Yes
Surround adjustment	No	Yes
Tow-in expense	No	Yes For warrantable repairs Maximum \$50
Idle speed adjustment, clutch adjustment, brake adjustment	No No applicable to covered vehicles	No No applicable to covered vehicles
CO adjustment	No	Yes

Before you make that new car purchase decision, stop and consider the extensive coverage provided by Audi's 3-year/50,000-mile limited warranty and no-charge scheduled maintenance.
